## 2<sup>nd</sup> STEP:

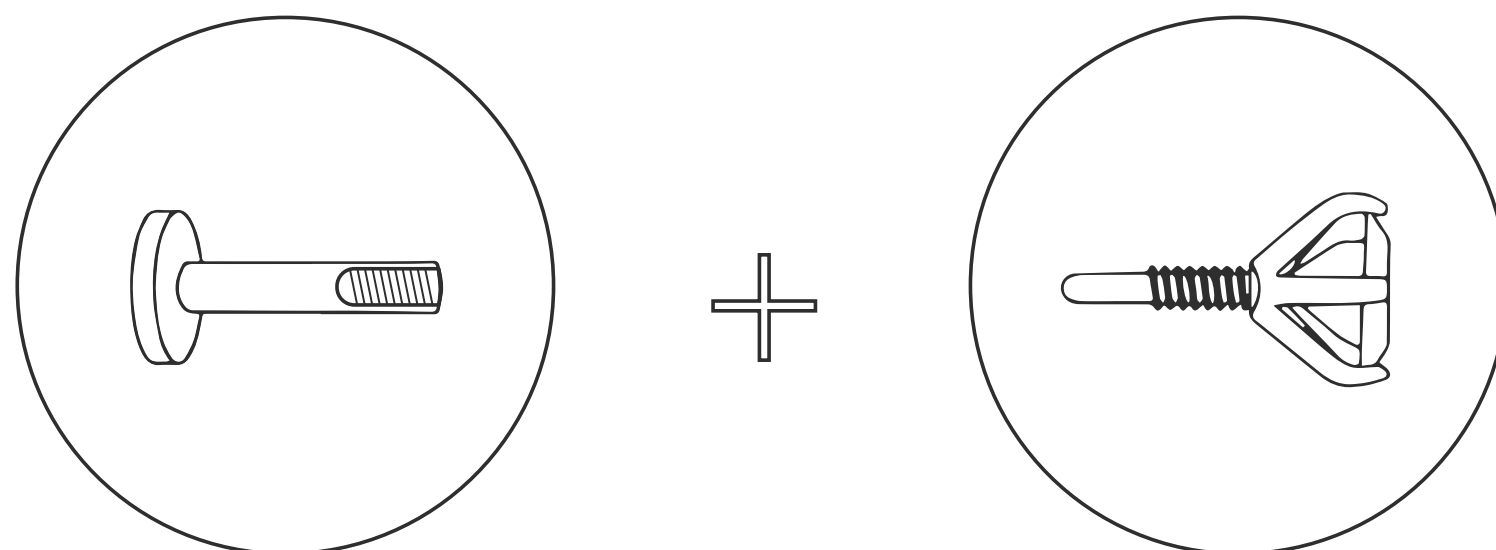

**Choose your piercing jewelry.**

For better & faster healing, we have curated our piercing jewelry to be only made of **Implant-Grade Titanium ASTM F-136, Solid Gold 14KT, and Solid Gold 18KT flatback posts and studs.**

These materials are considered the **best options for sensitive skin, with no nickel content.**

**We do not & will never** pierce using materials other than the ones mentioned above.

## **CHOOSE 1 FLATBACK + 1 STUD**

## **One Flatback, Endless Possibilities**

Flatback earrings are not recommended for children, we highly recommend Inverness Safety Back earrings. Consultations with our piercers are always available.

---

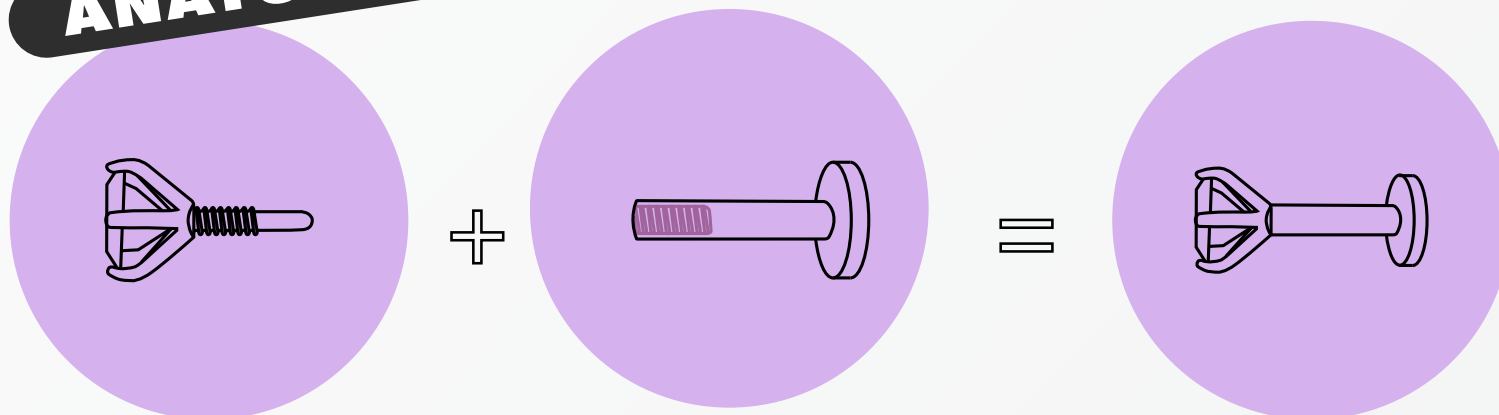

# HOW TO WEAR

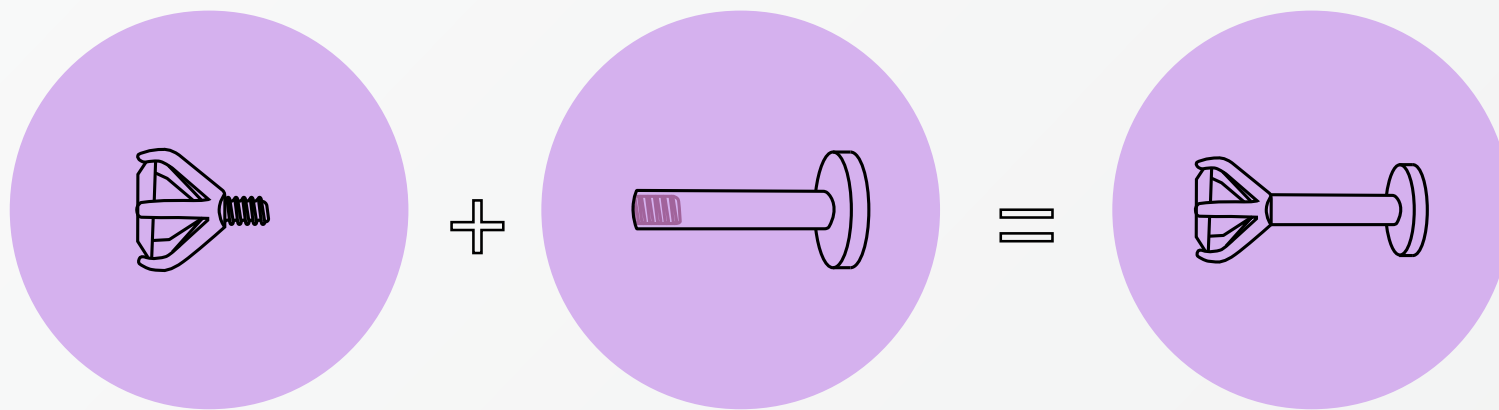

## INTERNALLY THREADED FLATBACK EARRINGS

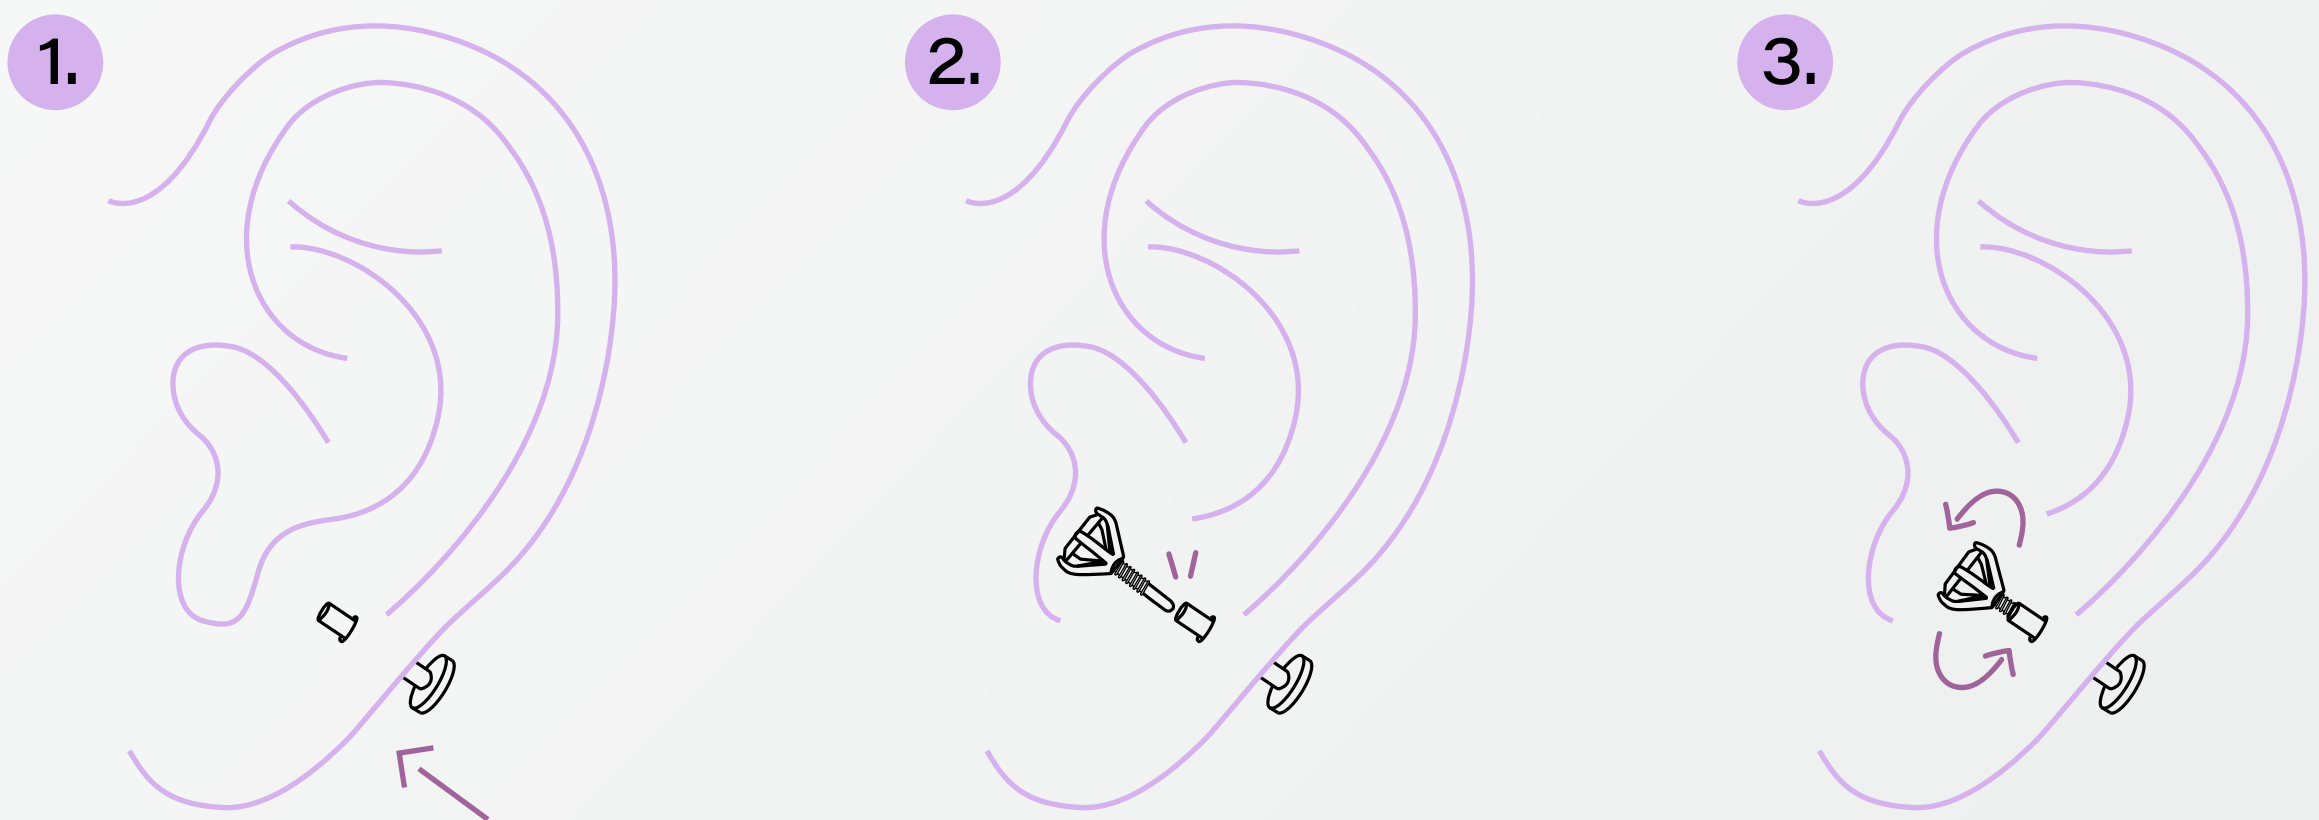

### ANATOMY

**LONGER**  
STUD THREAD POST  
FOR ALL SOLID GOLD FLATBACKS

**SHORTER**  
STUD THREAD POST  
FOR ALL TITANIUM FLATBACKS

1. Insert the flatback post through the back of your piercing.

2. Once it's visible from the front, attach the front threaded earring onto the post's opening.

3. Turn the threaded end **clockwise** onto the post until it's securely fastened.

### NOTE FROM OUR PIERCER:

PLEASE REMEMBER TO TIGHTEN THEM EVERY NOW & THEN

## HELIX PIERCING

Perfect for beginners, a **helix** is your go-to piercing to satisfy your curiosity. This type of piercing is very popular for when people are looking to curate an ear stack that migrates from the lobe around the full edge of the ear.
