Why choose Needle Piercing?

Needle piercing allows for more placement in areas beyond the reach of a hand-pressurized device, such as **flat, conch, tragus, and forward helix.**

Opting for needle piercing means getting pierced with **cute and high-quality** Flatback Earrings. These earrings are designed to be super comfy for cartilage piercings, and they make downsizing quite a breeze. When it's time to downsize, **simply switch to a shorter flatback post while keeping the initial earring stud you were initially pierced with.**

*Needle piercing only available at Tindik Grand Indonesia
